

# Orgs, Spaces, and Roles

Pivotal Cloud Foundry is a multi-tenant system.

Pivotal Cloud Foundry is a multi-tenant system.

*Orgs, spaces, and roles keep it organized.*

Orgs

Orgs are segments of an installation that contain spaces.

## Spaces

Spaces organize applications and service instances within an org.

# Orgs and Spaces

## Roles

**Roles** set user permissions within an org or a space.

A dark, atmospheric photograph of the Golden Gate Bridge in San Francisco. The bridge's iconic red-orange towers and suspension cables are visible, extending from a steep, rocky cliff on the left towards the right. The bridge is partially shrouded in a thick, low-lying fog or mist that fills the background and the water below. The sky is a uniform, dark grey, contributing to the moody and dramatic feel of the image. The overall lighting is very low, with the bridge's structure being the primary light source against the dark surroundings.
